## EXPERIENCE

### **Contractor, Metlico Insurance; Cairo, Egypt    Dec 2015    Feb 2016**

Designed and implemented a java GUI application for their illustration model. This would serve to improve security of their product, along with increasing the speed at which illustrations could be provided to the client. Application uses PDFBox to automatically generate PDF's for the client and sales department.

### **Intern, Bayside Historical Society; Bayside, NY    Fall 2014**

I was responsible for completing a redesign of the new Bayside Historical Society website. Furthermore, I designed and implemented a virtual tour of the facility, using an HTML Canvas, along with JavaScript.

### **Intern, Salama Insurance, Dubai, UAE    Summer 2014**

Responsible for finding new ways to speed up the processing of claims, as well as designing and implementing processes which could be automated. I designed and implemented several excel Macros, which would automatically format excel spreadsheets for processing.
